Projects

MediSyncPro
Web application designed to streamline the process of scheduling medical appointments and managing patient records online. It allows patients to find and book appointments online with their preferred clinics or doctors. The application offers multiple user roles including Clinic Owner, Doctor, Receptionist, and Patient.

Moment share connect
Moment share connect is a web application designed to facilitate event photo and video management. It enables event organizers to efficiently handle media submissions from guests during events and provides a user-friendly interface for accessing and downloading event photos and videos post-event.
